

School Improvement Plan

Priorities 25/26

What are we doing....

We hope the impact will be...

Numeracy

All teaching staff to attend Counting on Excellence Training

2 whole school Numeracy and Maths moderation projects focused on ensuring progression, pace and challenge.

Planners updated to include new resources and training

More learners across the school will be on track in their learning in Numeracy and Maths.

Learners across the school will be more engaged in their learning thanks to new resources and strategies and added challenge.

Writing

Continued development of the QI approach to writing - targeting Primary 4 and 6 initially.

More effective planning for writing across the curriculum and for real life purposes.

More learners across the school will be on track in their learning in Writing.

Learners will be more readily able to apply their writing skills, at the appropriate level, in a range of contexts.

Environments, Interactions and Experiences

All teachers will be completing action enquiry projects to change an aspect of their learning environment in order to promote creativity and curiosity.

Open area spaces for Primary 1-3 to be further developed to encourage creativity and curiosity and learning through play.

Introduction of SCERTS in the Learning Centre.

Increased opportunities for pupil led learning.

Increased opportunities for developing curiosity and creativity.

Increased engagement and motivation in learning across the curriculum.

More effective play based learning opportunities.

Effective planning and tracking in our Learning Centre provision.

Maintenance...

We are continuing to work towards our Silver Accreditation as a Nurturing School and our Rights Respecting School Gold Award.

We will maintain our Gold Award status in Sport Scotland and our high profile of STEM and Sustainability provision and partnerships.
